

## Small Business Administration

## § 121.301

(b) “Base Maintenance” requires the performance of three or more separate activities in the areas of service or special trade construction industries. If services are performed, these activities must each be in a separate NAICS code including, but not limited to, Janitorial and Custodial Service, Fire Prevention Service, Messenger Service, Commissary Service, Protective Guard Service, and Grounds Maintenance and Landscaping Service. If the contract requires the use of special trade contractors (plumbing, painting, plastering, carpentry, etc.), all such special trade construction activities are considered a single activity and classified as Base Housing Maintenance. Since Base Housing Maintenance is only one activity, two additional activities are required for a contract to be classified as “Base Maintenance.”

14. *NAICS 562910—Environmental Remediation Services:*

(a) For SBA assistance as a small business concern in the industry of Environmental Remediation Services, other than for Government procurement, a concern must be engaged primarily in furnishing a range of services for the remediation of a contaminated environment to an acceptable condition including, but not limited to, preliminary assessment, site inspection, testing, remedial investigation, feasibility studies, remedial design, containment, remedial action, removal of contaminated materials, storage of contaminated materials and security and site closeouts. If one of such activities accounts for 50 percent or more of a concern's total revenues, employees, or other related factors, the concern's primary industry is that of the particular industry and not the Environmental Remediation Services Industry.

(b) For purposes of classifying a Government procurement as Environmental Remediation Services, the general purpose of the procurement must be to restore a contaminated environment and also the procurement must be composed of activities in three or more separate industries with separate NAICS codes or, in some instances (*e.g.*, engineering), smaller sub-components of NAICS codes with separate, distinct size standards. These activities may include, but are not limited to, separate activities in industries such as: Heavy Construction; Special Trade Construction; Engineering Services; Architectural Services; Management Services; Refuse Systems; Sanitary Services, Not Elsewhere Classified; Local Trucking Without Storage; Testing Laboratories; and Commercial, Physical and Biological Research. If any activity in the procurement can be identified with a separate NAICS code, or component of a code with a separate distinct size standard, and that industry accounts for 50 percent or more of the value of the entire procurement, then the proper size standard is the one for that particular industry, and

not the Environmental Remediation Service size standard.

15. *Subsector 483—Water Transportation—Offshore Marine Services:* The applicable size standard shall be \$23.5 million for firms furnishing specific transportation services to concerns engaged in offshore oil and/or natural gas exploration, drilling production, or marine research; such services encompass passenger and freight transportation, anchor handling, and related logistical services to and from the work site or at sea.

### SIZE ELIGIBILITY REQUIREMENTS FOR SBA FINANCIAL ASSISTANCE

#### § 121.301 What size standards are applicable to financial assistance programs?

(a) For Business Loans and Disaster Loans (other than physical disaster loans), an applicant must not exceed the size standard for the industry in which:

(1) The applicant combined with its affiliates is primarily engaged; and

(2) The applicant alone is primarily engaged.

(b) For Development Company programs, an applicant must meet one of the following standards:

(1) The same standards applicable under paragraph (a) of this section; or

(2) Including its affiliates, tangible net worth not in excess of \$7 million, and average net income after Federal income taxes (excluding any carry-over losses) for the preceding two completed fiscal years not in excess of \$2.5 million. If the applicant is not required by law to pay Federal income taxes at the enterprise level, but is required to pass income through to its shareholders, partners, beneficiaries, or other equitable owners, the applicant's “net income after Federal income taxes” will be its net income reduced by an amount computed as follows:

(i) If the applicant is not required by law to pay State (and local, if any) income taxes at the enterprise level, multiply its net income by the marginal State income tax rate (or by the

combined State and local income tax rates, as applicable) that would have applied if it were a taxable corporation.

(ii) Multiply the applicant's net income, less any deduction for State and local income taxes calculated under paragraph (b)(2)(i) of this section, by the marginal Federal income tax rate that would have applied if the applicant were a taxable corporation.

(iii) Sum the results obtained in paragraphs (b)(2)(i) and (b)(2)(ii) of this section.

(c) For the Small Business Investment Company (SBIC) program, an applicant must meet one of the following standards:

(1) The same standards applicable under paragraph (a) of this section; or

(2) Including its affiliates, tangible net worth not in excess of \$18 million, and average net income after Federal income taxes (excluding any carry-over losses) for the preceding two completed fiscal years not in excess of \$6 million. If the applicant is not required by law to pay Federal income taxes at the enterprise level, but is required to pass income through to its shareholders, partners, beneficiaries, or other equitable owners, the applicant's "net income after Federal income taxes" will be its net income reduced by an amount computed as follows:

(i) If the applicant is not required by law to pay State (and local, if any) income taxes at the enterprise level, multiply its net income by the marginal State income tax rate (or by the combined State and local income tax rates, as applicable) that would have applied if it were a taxable corporation.

(ii) Multiply the applicant's net income, less any deduction for State and local income taxes calculated under paragraph (c)(2)(i) of this section, by the marginal Federal income tax rate that would have applied if the applicant were a taxable corporation.

(iii) Add the results obtained in paragraphs (c)(2)(i) and (c)(2)(ii) of this section.

(d) For Surety Bond Guarantee assistance—

(1) Any construction (general or special trade) concern or concern performing a contract for services is small

if its average annual receipts do not exceed \$6.0 million.

(2) Any concern not specified in paragraph (d)(1) of this section must meet the size standard for the primary industry in which it, combined with its affiliates, is engaged.

(e) The applicable size standards for the purpose of all SBA financial assistance programs, excluding the Surety Bond Guarantee assistance program, are increased by 25 percent whenever the applicant agrees to use the assistance within a labor surplus area. Labor surplus areas are listed monthly in the Department of Labor publication called "Area Trends."

[61 FR 3286, Jan. 31, 1996, as amended at 66 FR 30648, June 7, 2001; 67 FR 3056, Jan. 23, 2002]

**§ 121.302 When does SBA determine the size status of an applicant?**

(a) The size of an applicant for SBA financial assistance is determined as of the date the application for such financial assistance is accepted for processing by SBA, except for the Disaster Loan and Preferred Lenders programs.

(b) For the Preferred Lenders program, size is determined as of the date of approval of the loan by the Preferred Lender.

(c) For disaster loan assistance (other than physical disaster loans), size status is determined as of the date the disaster commenced, as set forth in the Disaster Declaration. For pre-disaster mitigation loans, size status is determined as of the date SBA accepts the application for processing. For economic injury disaster loan assistance under disaster declarations for the September 11, 2001 terrorist attacks or under subpart G of part 123 of this chapter, size status is determined as of the date SBA accepts the application for processing, and for applications submitted before March 15, 2002, whether denied because of size status or pending, such applications shall be deemed resubmitted on March 15, 2002. For pre-disaster mitigation loans, size status is determined as of the date SBA accepts a complete Pre-Disaster Mitigation Small Business Loan Application for processing. Refer to § 123.408 of this chapter to find out what SBA considers to be a complete Pre-Disaster
